

I truly believe NAET works in alleviating and eliminating allergies and would encourage anyone who has children suffering from food or seasonal allergies to give it a try. NAET was really the only option I found that addresses, alleviates & eliminates food allergies. Allergists, why they definitely serve a purpose in dealing with allergies, do not offer any type of treatment for food allergies other than to avoid those foods and periodically try testing them in a hospital setting. For environmental they offer up medicine or shots and for some that may be the right choice, it just wasn't for me. I also didn't want to accept that there was nothing out there that could potentially help food allergies. Which is why once I discovered NAET, I acted quickly to begin treatments. I would strongly encourage anyone – adult or child – suffering with allergies to give NAET a try. It made a huge difference in our lives and can make a huge difference in yours. The best part – it is pain free and can help you enjoy life more fully!

Sincerely,

A handwritten signature in dark ink, appearing to read 'Jennifer Sclafani'. The signature is fluid and cursive, with a long, sweeping underline that extends to the right.
